AIMS AND SCOPE

The scientific journal *Food and Environment Safety* is a quarterly publication (4 issues per year) of the Faculty of Food Engineering, Stefan cel Mare University of Suceava, Romania, that is indexed in the International Databases: Index Copernicus Journals Master List, Ulrich's and Chemical Abstract (CAS). Also, it is acknowledged B+ by the main Romanian funding organization for university and postgraduate research programmes - National University Research Council (CNCSIS).

The purpose of *Food and Environment Safety* journal is to provide a means of rapid publication for significant contributions to the improvement and diversification of specific activities in the field of food engineering, food and environment safety, biotechnologies, chemical engineering, biosensors, agriculture and applied sciences as well. Moreover, the journal assures promotion of research results in the field of food production and, from the nutritional and toxicological point of view, it underlines the importance of applying the best analyzing and control methods for consumer's protection, food technologies, industrial biotechnologies and environment protection as well to increase life quality.

Food Engineering Faculty journal has been published since 2000 like *Analele Universitatii Stefan cel Mare Suceava, Sectiunea Colegiul Tehnic (ISSN 1583-2295)*. Between 2002 and 2004 the journal was published biannually like *Analele Universitatii Stefan cel Mare Suceava, Sectiunea Inginerie Alimentara (ISSN 1583-2295)*, then from 2005 till 2009, it was issued biannually like *ANNALS of Suceava University - Food Engineering (ISSN 1842-4597)*, indexed in Index Copernicus data base and acknowledged by the National University Research Council (CNCSIS), Romania. In 2010, the Food Engineering Faculty journal changed its name in *Food and Environment Safety (ISSN 2068 - 6609)*.

The cover of the journal was made by **Niculai Moroşan**.
